Azure 103 Module 4 , Hands On – 11

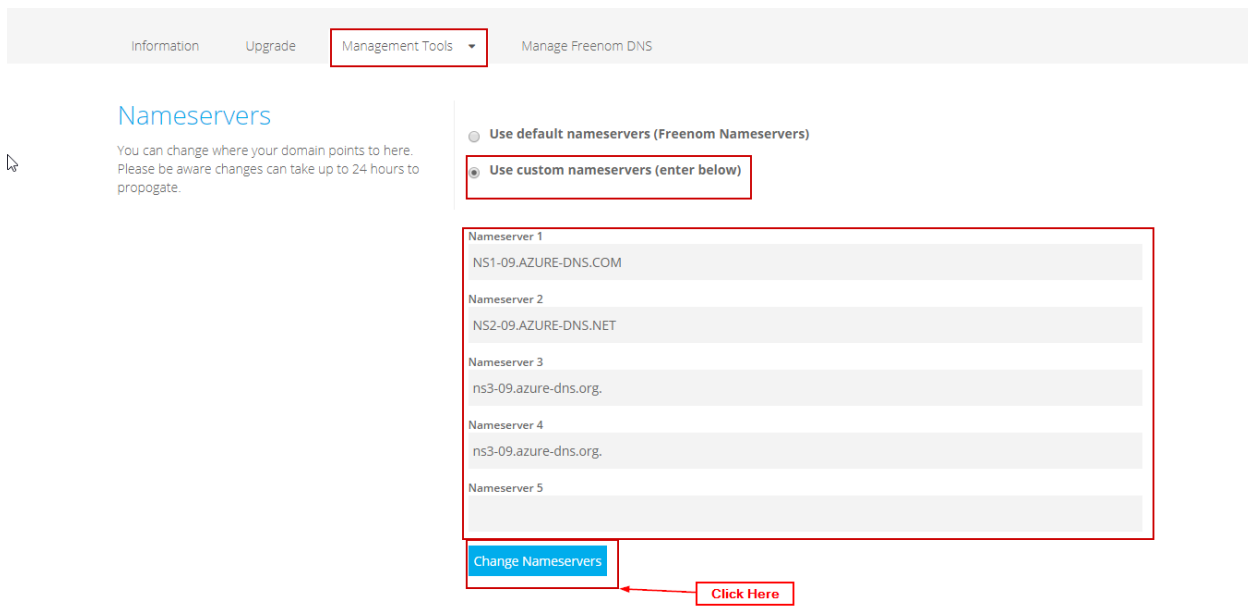

Add RecordSet to DNS.

Step 1: Open the DNS Zone and copy Name Server Addresses.

The screenshot shows the Azure portal interface for a DNS zone. On the left, there's a sidebar with links: 'Record set' (with a plus icon), 'Move' (with a right arrow icon), 'Delete zone' (with a trash icon), and 'Refresh' (with a circular arrow icon). Below these, the resource group is 'test2', the subscription is 'Free Trial', and the subscription ID is 'b9be3eac-a886-420f-88c4-c8a6156af111'. There are also links for 'Tags (change)' and 'Click here to add tags'. On the right, a list of name servers is displayed: 'Name server 1: ns1-09.azure-dns.com.', 'Name server 2: ns2-09.azure-dns.net.', 'Name server 3: ns3-09.azure-dns.org.', and 'Name server 4: ns4-09.azure-dns.info.'. A red box highlights this list, and a red arrow points from a label 'Nameserver Address' to it.

Step 2: Change the name server addresses in your domain name provider website.

The screenshot shows the Freenom DNS management interface. At the top, there are tabs: 'Information', 'Upgrade', 'Management Tools' (which is selected and highlighted with a red box), and 'Manage Freenom DNS'. Below the tabs, the section is titled 'Nameservers'. A note says: 'You can change where your domain points to here. Please be aware changes can take up to 24 hours to propagate.' There are two radio buttons: 'Use default nameservers (Freenom Nameservers)' and 'Use custom nameservers (enter below)'. The second option is selected and highlighted with a red box. Below this, there are five input fields for nameservers, labeled 'Nameserver 1' through 'Nameserver 5'. The first four fields contain the following addresses: 'NS1-09.AZURE-DNS.COM', 'NS2-09.AZURE-DNS.NET', 'ns3-09.azure-dns.org.', and 'ns3-09.azure-dns.org.'. The fifth field is empty. A red box highlights these input fields. At the bottom, there is a blue button labeled 'Change Nameservers' and a red arrow points from a label 'Click Here' to it.

Step 3: Open the DNS Zone and click on '+ Record Set'.
